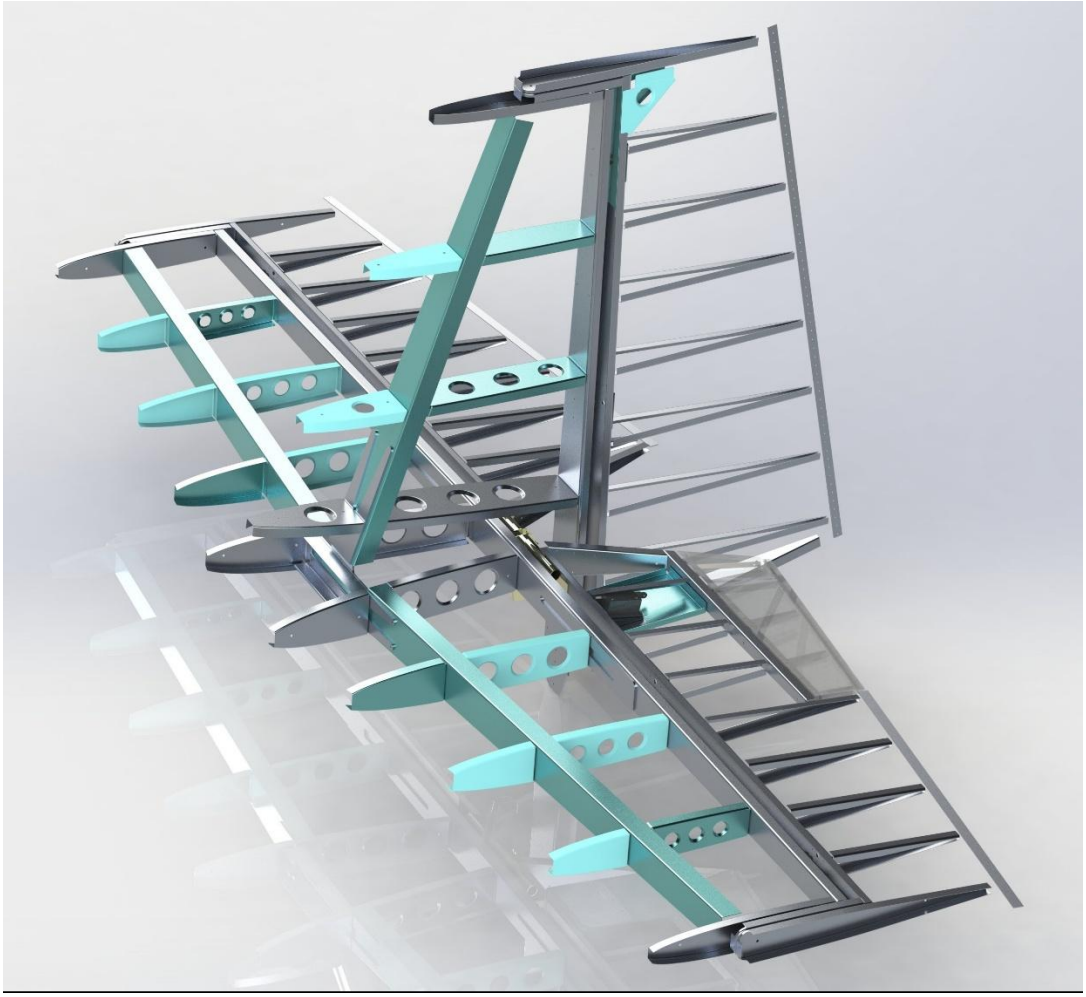
**NEWS**



**Mark 3 empennage kits**

We're not quite ready to ship tail kits yet, but we're close enough that we've decided to start taking names. We expect the prices to be virtually the same as they were before Covid screwed everything up... about $4000 USD.

If you just want to put your name on the list, or if you have a question, hit the email button below (vince@f1aircraft.com) and send me your name or question.

If you're brave and want to be at the very front of the line, send us a check* to the address at the bottom of this PDF. We didn't say how much to send, so decide your comfort level and how close to the front of the line you'd like to be. **Refundable if you change your mind.*

***Note:*** *Do not reply to this newsletter as it puts you in the same thread as 700 other readers.*

**For sale: Shawn McKay's F1 Rocket**

F1 Rocket, C-FWFP, s/n 005

- Engine is out of a Comanche 260, it had 1500 hours on it when I rebuilt it. It now has 115 hrs on rebuild. Original logs are with it.

- Dynon sky view touch with autopilot

- Hartzell prop was serviced up to date with the mandatory 10 yr overhaul (in Canada)

- All wiring is Tefzel aircraft wire along with all toggles and breakers.
- Just finished the annual inspection

- aircraft was primered with two part epoxy, then two coats of Endura paint along with two coats of clear for UV protection.

- I did all the work myself. With lots of help from local and far off builders. (Vinces Rocket webpage) Mark Frederick assisted as well.

A larger photo is here: C-FWFP

Asking **$205,000.00** USD

**For sale: Vera Verbal's F1 Rocket**

I am selling my F1 Rocket, N654VV, s/n 092.

It was built in Toronto by two meticulous builders, who utilized Tom Martin as a consultant.

Tom Martin built the firewall forward.

It's a 2005, total time 444 hour, flown 180 hours in the last two years.

It has an Indy engine mount, IO540, 260Hp, dual Lightspeed electronic ignition, a Plasma 2+ and a Plasma 3, both of which were reconditioned by LSE recently.

I am asking **$245,000.**

**For sale: Van's RV-4**

RV-4, N94VF, s/n 809, built in 1994.

My personal RV-4, built by me back in '94, about 565TT hours on the airframe and 1040 SMOH on the Lyc. O-320-E3D engine. 160 HP.

GRT panel with 2 axis autopilot, GRT Mini backup, Garmin Aera 660 GPS, etc. ADS-B in/out.

Sensenich GA prop

170KTAS at 2600RPM.  Flies great!

The condition inspection is due in May. I can assist the new owner with a fresh inspection on purchase, i.e. train the new owner on the ins and outs of an RV-4.

**Possible partial trade for a Cub, T-craft, Champ, some biplanes, and other taildraggers considered.** I do NOT need projects, so if it needs work, I'll pass. Must be 100% airworthy.

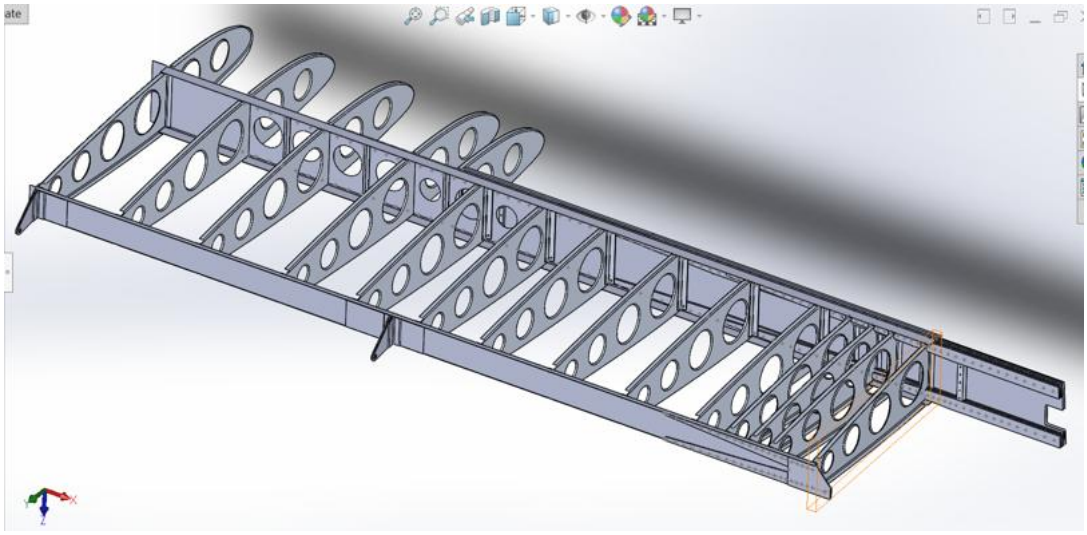
Asking **$65,000.00** USD



**Sport wing and tail kits for sale**

**F1 Rocket Sport wing partial kit and complete Mk3 tail kit**

This is a one time only item. When it's gone, it's gone. These parts are NOS and untouched. Probably not even dusty because they've been in the sealed boxes since January 2022.

**The Sport wing partial kit consists of:**

• F-004 fuselage bulkhead set for the Phlogiston spar, with splice plates

• Phlogiston rear spar set

• Phlogiston main spar set

• Sport wing ribs - large tanks - Sport wing rib set - 55 gallon tank option - includes

additional tank ribs, 54 ribs total (*note: 42 gallon tanks are standard)

• Sport wing leading edge skins - Sport wing leading edge skins for 55 gallon fuel tanks

These are the primary components of the Sport wing. You'll need flaps, ailerons, main skins, and various other small parts, but the primary structure is there.

**The Mk 3 tail kit includes:**

• Everything needed to produce the current version Mk3 empennage

The buyer will be assigned a builder number.

Price $17,500 Contact Vince at vince@f1aircraft.com
